

Teltek C20

Checkweigher

Dynamic weighing system

USER MANAGEMENT

The C20 is supplied with an easy-to-use display with settings for nominal weight, over and underweight. The display makes it easy to change the parameters for the product.

ACCURACY

The precision engineered C20 weigh platform guarantees weight stability, accuracy and repeatability.

APPLICATIONS

The Teltek C20 is built for applications such as: cartons, heavy items that have low throughput, where statistics and more advanced functions are not necessary.

BELT DIMENSION

The belt dimensions of the Teltek C20 are adapted to suit any kind of application, from big bags of seed to small boxes of candy.

BENEFITS

A reliable checkweigher that won't let you down. A well-priced checkweigher that is perfect for simple tasks. The Teltek C20 rejects items that are under or over the nominal weight.

REJECTS

The Teltek C20 offers a range of reject devices to suit customer specific needs. E.g. air blast, pusher, single or double flipper/divert arm and drop-flap.

DESIGN

Available in stainless steel, IP65 with conveyors driven by maintenance free brushless DC motors.

MID & CE CERTIFIED

The MID certified C20, ensures your weighed items are accurate each and every time.
